### Goes After Pistol Toters.

Police Judge John J. Riley, of Lexington, established a precedent, Wednesday morning in this court, which if followed by other Police Courts in the State would be the means of lessening fatal shooting casualties in Kentucky. He announced from the bench Tuesday that hereafter when a man is before the court charged with carrying a concealed deadly weapon, the offender would be given the limit of the law and the weapon would be destroyed in the presence of the court. Heretofore a man brought into court charged with carrying a pistol or other deadly weapon has usually been fined and when paid the weapon would be given back to him. Wednesday, however, Judge Riley had the officers of the court to destroy a fine revolver which had been taken from a prisoner, who was arrested Tuesday night, and the man was also given a heavy fine.

### Paris Boy Recovers From Dangerous Operation.

Mike Jordan, of this city, returned home Wednesday morning from St. Joseph Hospital, Lexington, comparatively a well man. A week ago he was taken to this hospital, from which his family and friends never expected to see him leave alive.

He was suffering from an abscess that had formed in the lower part of the lung, and upon examination it was discovered that it had grown down through the diaphragm into the abdomen and even into the small of the back.

There was but one thing that could save his life. It was the knife of the skilled surgeon, but it was dollars to doughnuts that it could not be performed successfully, as it was so delicate and critical. It was the last resort however. His only hope in life rested in the skill and nerve of the surgeon.

An incision was made in the back and over two gallons of puss ran out of the abscess. In this incision a tube was inserted so that whenever the patient coughs the puss instead of coming up through his throat and mouth runs out of the tube. He will be able to go about his work in a few weeks if he has no back set, and he owes it all to the skill of surgery.

### DEATHS.

—Mr. C. Frank McCann died at his home in this city, Tuesday morning, of paralysis, aged 58 years. He was connected with the Paris Electric Light Co., and had recently moved here from Lexington. His remains were taken to Lexington Wednesday morning for burial, after short services at the house by Eld. Carey Morgan.

### A Private Railroad.

J. B. Haggin will soon be able to step into his private car at New York and remain in it till he steps off in front of his palatial residence at Elmendorf. Arrangements have been perfected whereby a line of railroad will be run from the Paris interurban road in front of his gate to the home.

The private car of Mr. Haggin's can be drawn to Lexington on the C. & O., be taken by a switch engine around the belt road to the intersection of the Paris line and taken in tow by an interurban car. The switch is being laid at Mr. Haggin's gate, and the grading is being done for the line which will extend from it to the inner grounds of Green Hills. Being of the standard gauge, the Paris track will carry any car that runs on any railroad line.

Mr. Haggin has been compelled to haul all his coal by wagon, but now all that will be necessary will be to have the coal loaded on a car at the place where he purchases by the multi-carload lot, and have it taken out on the traction line. A receiving station is in course of construction and when the patent cars for hauling coal are unloaded, the coal disappears down a chute, and there is nothing more seen of it near the railroad. It is conveyed to the bins where it remains to be drawn upon as needed. Mr. Haggin will build a waiting station on his place, and as he already has a car which goes out to his place every day, he can be said to operate a private railroad on his place.

No idea can be gained of the enormity of this undertaking unless a personal visit is made to Elmendorf. All of the provisions and feed stuff for Elmendorf, which is to be drawn over the pike and through the grounds heretofore, will now be taken right up to the place over the private railroad.

## A Word About Coffee.

Anybody can roast Coffee, but it stands to reason that in order to obtain best results and perfect flavors, the roasting must be done under the direction of an expert coffee blender. Such men demand large salaries and could not be employed by such small concerns as exist in small towns; their salaries range from two to six thousand dollars per year. Now I buy my Coffee from one of the largest concerns in the world. They can afford to pay any price for a coffee blender. The quality is always the same, the flavor never changes. Once you use my Coffee you will always use it. It costs but little more than cheap Coffee, goes farther and tastes better.
